PROFESSIONAL SUMMARY

Frontend Developer and Computer Engineering graduate with hands-on experience building web applications using JavaScript, React.js, and Next.js. Experienced in developing reusable UI components, integrating RESTful APIs, managing application state, optimizing frontend performance, and building accessible, responsive user interfaces.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, MUI, Vite

State Management: React Hooks, Context API

API Integration: RESTful APIs

Tools: Git, GitHub, Figma, VS Code, Postman

Additional: Responsive Design, Accessibility, Performance Optimization, Component-Based Development

EXPERIENCE

Frontend Developer Trainee

Taqat Gaza | Oct 2025 – Dec 2025

- Developed reusable UI components using React.js within a team environment.
- Applied React best practices and state management patterns to build maintainable frontend features.
- Used Git and GitHub for version control and collaborative development.

PROJECTS

Dawai — Pharmacy Monitoring and Medicine Search System

Graduation Project | Nov 2025 – Jun 2026

- Developed frontend interfaces for a pharmacy monitoring and medicine search system using React.js.
- Built reusable UI components and integrated frontend features with RESTful APIs to display medicine and pharmacy data.
- Applied responsive design, accessibility practices, and performance optimization techniques to improve the frontend user experience.

Quick Bite — Restaurant Ordering System

Islamic University of Gaza | Mar 2026 – Jun 2026

- Developed responsive restaurant ordering interfaces using React.js and Tailwind CSS.
- Built reusable components and implemented frontend features including product browsing, cart management, authentication interfaces, and order tracking.
- Integrated the frontend with RESTful APIs and collaborated with backend developers on data flow and application functionality.

E-Commerce Shop

Frontend Project | Oct 2025 – Dec 2025

- Developed a responsive e-commerce frontend with product listing, filtering, and cart functionality.
- Built responsive UI components using React.js and MUI.

EDUCATION

Bachelor's Degree in Computer Engineering

Islamic University of Gaza (IUG) | Gaza, Palestine | Sep 2021 – Jun 2026

GPA: 91.6/100

LANGUAGES

Arabic: Native

English: Technical Proficiency
